Farmingville, NY - Brookhaven Town Supervisor Ed Romaine and Councilman Dan Panico recently attended the ribbon cutting festivities for Grossman Imaging Center in Manorville, part of the Peconic Bay Medical Health System. This state-of-the-art facility was made possible thanks to the generosity of the Grossman Family, and at 10,000 square-feet in size, provides comprehensive diagnostic and treatment services for a wide range of medical conditions. Services include digital mammography with 3-D imaging, advanced ultra sound and digital records for fast result reports. The Grossman Imaging Center is located in the Feil Campus on County Road 111, which was developed as a result of a $5 million donation to Peconic Bay Medical Center from the Louis Feil Charitable Lead Annuity Trust.

"Congratulations to the Grossman Imaging Center management and staff on their grand opening. It is a very impressive facility and I thank the Peconic Bay Medical Health System and the Grossman family for their commitment to serve the community."

"I am pleased that our East End constituents will now have a place to go to receive quality care in a pristine facility," said Councilman Panico.
