**Farmingville, NY** - On June 3, 2010, senior citizens from the Town of Brookhaven gathered at the Centereach VFW Hall to share their thoughts and concerns regarding senior-citizen-related issues at a Senior Expo.

Government representatives, government agencies, and private corporations, offered information and advice to the attending seniors. Refreshments were served. One of the speaking government officials was Deputy Supervisor/Councilwoman Kathleen Walsh, who was honored to meet and address the concerns of our senior citizens.

Councilwoman Walsh offered information pertaining to the "Honor Flight Network," a program which provides World War II veterans with travel accommodations to visit the World War II memorial in Washington D.C.

The members of the Eastwood Senior Citizen Club from Council District Three, seen here with Councilwoman Kathleen Walsh, opened their membership to visitors attending the forum.
