Farmingville, NY – The Brookhaven Highway Department recently completed a paving project consisting of seven roadways in the hamlet of Patchogue. The streets included in the project were: Beatrice Court, Lillian Place, Phyllis Drive, Schoenfeld Boulevard, Swan Lake Drive, Washington Avenue and Washington Place.

"With this project the Highway Department was able to address the needs of both residents living in this community and motorists who use Phyllis Drive and Washington Avenue as a connecting point between the Sunrise Highway South Service Road and Montauk Highway," said Highway Superintendent Daniel P. Losquadro. "After completing this project we can focus more resources toward completing our few remaining paving projects."
