Ridge/Shoreham, NY – Brookhaven Highway Superintendent Daniel P. Losquadro and Councilwoman Jane Bonner have teamed up to have the major thoroughfare of Randall Road repaved and restriped in the hamlets of Ridge and Shoreham. This roadway extends from Whiskey Road south to New York State Route 25A north, with Albert G. Prodell Middle School, three highly populated retirement communities and several neighborhoods located directly off of it. Randall Road has also been widened where it meets Route 25A. By widening the street, it has accommodated for the installation of a new, dedicated left hand turning lane for motorists turning westbound onto 25A, increasing capacity at the intersection and preventing motorists from getting backed up at the traffic light.

“This roadway serves as a connecting point for motorists traveling between mid-Brookhaven and the North Shore,” said Superintendent Losquadro. “I was able to coordinate the paving and road widening projects at the same time in order to cause as little inconvenience as possible to residents and motorists. Now that the project is complete, it is very gratifying to know we were able to address the concerns of residents living in both Ridge and Shoreham with one project.”

“The widening and re-paving of Randall Road is a major improvement that will ease traffic flow and reduce congestion,” said Councilwoman Bonner. “I commend and thank Superintendent Losquadro and the Highway Department for their continuing efforts to make driving more convenient and safer for everyone.”
