Farmingville, NY – On September 25, Town of Brookhaven Councilwoman Connie Kepert joined Longwood Middle School teachers Jean Bailey and Sandra Puccio with their 6th grade classes during a hands-on science exploration of the Carmans River. This event was part of "A Day in the Life of the Carmans River," which was created by the Central Pine Barrens Joint Planning and Policy Commission.

"As a former teacher, it is always exciting to see kids involved and excited about learning," stated Councilwoman Connie Kepert.
