**Patchogue, NY** - For the second consecutive year, the Brookhaven Highway Department and Village of Patchogue have partnered to repave a roadway at less cost to taxpayers. The east side of Monroe Avenue is under the jurisdiction of Brookhaven Town and the west side is under the jurisdiction of Patchogue Village. The two municipalities will split the cost of this community improvement project, with the total investment estimated at $109,000. Monroe Avenue did require full depth reclamation, which involved removing the entire roadway down to the dirt and recycling the old material to use as a sturdy base for the newly paved surface.

"Working with Mayor Paul Pontieri we were able to complete this community enhancement project at less cost to taxpayers," said Daniel P. Losquadro, Brookhaven Town Superintendent of Highways. "It is very gratifying to know we were able to address the concerns of residents in two separate municipalities with one project."

Patchogue Village Mayor Paul Pontieri said, "Re-paving Monroe Avenue is another example of how the Village and Town work together to improve the quality of life for our residents. Last year, we re-paved Bay Avenue and I signed an intermunicipal agreement for the Village to maintain some Town-owned storm basin filters. I look forward to working with Superintendent Losquadro on other projects that are beneficial to both the Town and the Village of Patchogue."
