Farmingville, NY - The Brookhaven Highway Department has improved roadway conditions in the area known as the "B Section" of Stony Brook, while simultaneously providing the neighborhood with a more aesthetic appearance. Nineteen roads were paved, including: Balfour Lane, Ballad Lane, Ballad Place, Barker Court, Barker Drive, Barnwell Lane, Beaveraide Lane, Bendix Lane, Bentley Lane, Birdseye Circle, Blackwell Court, Blackwell Lane, Blueberry Lane, Bonnie Lane, Botany Lane, Bucknell Lane, Bunting Lane, Burgess Lane and Buxmont Lane.

Several residents in the neighborhood said they had been waiting an extremely long time to have these roads repaved and are very pleased with the quality of work that was done.

"It is pleasure driving through the community now," said Dr. Jay Orlikoff, who lives in the neighborhood. "The last time these roads were repaved was about 25 years ago and it was tough to get in and out of the community. This time it was very well done and the courtesy of the workers in how they directed traffic was extremely helpful."

"It is very gratifying to hear the positive feedback we have been receiving from residents in this community," Highway Superintendent Daniel P. Losquadro said. "This is one more project I can check off our to-do list. The Highway Department will keep on pace to complete many more roads throughout this paving season."
