June 23, 2015

Miller Place/Mt. Sinai, NY - The Brookhaven Highway Department’s paving season is in full swing and a paving project in the communities of Miller Place and Mount Sinai has just been completed. The fourteen roadways in this project included: Central Boulevard, Echo Avenue, Erie Court, Farah Court, Huron Court, Janet Court, North Country Road, Niagra Street, Parviz Court, Queens Avenue, Sunwood Drive, Superior Street, Washington Avenue and White Birch Circle.

"This project addresses neighborhood roads in Miller Place as well as the major thoroughfare of Echo Avenue from New York State Route 25A to North Country Road," said Brookhaven Highway Superintendent Daniel P. Losquadro. "In order to make it more convenient for residents in Mount Sinai, Miller Place, Sound Beach and Rocky Point, paving was performed at night and completed well before the morning rush hour. I am pleased with how efficiently this project was done and that we can now shift our resources to more roadways in Brookhaven."

The Highway Department is also planning to start work on a significant community improvement project that will increase pedestrian safety and help beautify Echo Avenue between New York Avenue and North Country Road in Sound Beach. Sidewalks will line the roadway on the west side from North Country Road to Devon Road, where a crosswalk will be created leading to a newly installed sidewalk on the east side of the road that will extend up to New York Avenue. Ornamental street lights will also be installed along both sides of the road, and trees will be planted before the Handy Pantry between Echo Avenue and Shinnecock Drive. The project will also include a new guardrail and retaining wall just north of Handy Pantry on the east side of the road. The roadway will also be paved once the other work is completed.

"This spring, we addressed the south side of Echo Avenue in Miller Place and Mount Sinai and in the fall we plan to begin working on the north side in Sound Beach," Deputy Superintendent Steve Tricarico said. "The project will help beautify the community and provide a safe area for residents to walk and patronize local businesses."
