Farmingville, NY - On March 27, Councilwoman Connie Kepert visited the property at 142 Whiskey Road in Middle Island where once stood a vacant, blighted house that was demolished on March 11 as a precaution to prevent a potentially dangerous collapse of the unstable structure. During the second phase of the project, the foundation was demolished and the debris was removed. In the past several years, complaints from neighbors through the Council District 4 office resulted in multiple clean ups by the Town's Department of Waste Management and the boarding and securing of the structure by the Town's Building Department. Over $5,000 in clean up and securing costs have been charged back to the property owner.

"I am happy to see this unsafe structure finally demolished," stated Councilwoman Kepert. "This abandoned home has been a blight on the neighborhood for years and has directly impacted the quality of life and property values of the surrounding community. Thank you to our Law, Waste Management and Building Departments who have been working tirelessly to rid neighborhoods throughout Brookhaven of these unsafe houses."
