October 27, 2012

Farmingville, NY - Hurricane Sandy is currently projected to hit the Town starting early Monday morning and is likely to cause damage throughout the Town, especially along the coastal areas on the North and South Shores where high tides and flooding are expected to occur. The Town recommends that residents living in these areas take precautions and be prepared for evacuation. It is also recommended that those who evacuate make arrangements to relocate with family and friends who live in areas not affected by coastal flooding. If evacuation becomes necessary, Suffolk County and the Red Cross will open shelters across the County. For more information, you can call the Red Cross at 631-924-6911 or 1-800-733-2767. You can also visit www.suffolkcountyny.gov or www.redcross.org, and keep tuned to local radio and television stations for the latest news about the hurricane and announcements regarding evacuation orders.

Please go to the Town's website at www.brookhaven.org for more information on hurricane preparedness, weather updates and emergency contact numbers. Residents can also call 451-TOWN to report down trees and power lines, as well as other emergency issues that may arise during the storm. Call 911 for police, fire and ambulance emergencies.

The Town will also be sending out e-mail alerts to residents who have registered on our e-mail list. If you are not on the list, you can sign up today at www.brookhaven.org. Residents can also sign up for countywide Code Red alerts at www.suffolkcountyny.gov.
