April 8, 2013
Farmingville, NY - Superintendent of Highways Daniel Losquadro announced today that the Town will start a special bulk brush pick-up on Monday, April 15 and asked residents to place their bulk brush items on the street in front of their homes by Sunday evening, April 14. The items, which do not have to be bundled, can include tree limbs, trunks, branches, bushes and any other vegetative debris. Highway crews will make one pass through the Town. Any debris that homeowners leave out after the special pick-up must be prepared and bundled in accordance with the Town's Waste Management debris pick-up requirements (visit www.brookhaven.org or call 451-TOWN (8696) for details).

The special bulk brush clean-up is the first step in Superintendent Losquadro's multi-faceted road maintenance and repair plan. Once the debris is removed, the Town will use road sweepers to clean the streets in preparation for Highway crews to begin making repairs throughout the Town.

"Our severe fall and winter weather left residents with large amounts of yard debris and now that it's spring clean-up time, they need to get rid of it," said Superintendent Losquadro, "This bulk pick-up is a great opportunity to do just that and at the same time assist the Town in our efforts to make the needed repairs to our roads. I urge everyone to take advantage of the special pick-up because once we're done with their street they'll have to go back to preparing it for Waste Management which is certainly more work."

For more information about the special bulk brush pick-up, please call 451-TOWN or visit www.brookhaven.org
