Farmingville, NY - Under blue skies and warm sun, the annual Garden Blessing at St. Joseph the Worker's Community Garden was held on Wednesday morning, May 1st. Father John Millitt lead community members around the garden and held a short prayer service in the center of the labyrinth. "This is a lovely community event and I look forward to it every year," stated Councilwoman Kepert.

The community garden which is located on Narragansett Ave. in East Patchogue, is a source of community pride, a place of beauty and communal space for anyone interested in gardening or enjoying nature. The garden consists of a pergola interwoven with grape and clematis vines. Beyond the pergola are raised garden beds which shape the 82 foot wide labyrinth. Councilwoman Kepert was instrumental in securing grants through Quality King settlement for the construction of the garden.
