Farmingville, NY - While this time of year brings friends and families together for graduation parties and to celebrate Independence Day, Brookhaven Highway Superintendent Dan Losquadro wants residents to remember these times for all the right reasons.

"Safety must be the number one priority for anyone who operates a motor vehicle," Superintendent Losquadro said. "If you or anyone you know is attending a graduation party or Independence Day celebration, make sure to do so responsibly. A poor decision to drive under the influence could cost yourself, your passengers and other residents on the road their lives."
