Coram, NY - The Brookhaven Highway Department completed a major project on August 1, paving North Country Road from the Port Jefferson Village Line to Pipe Stave Hollow Road in Mount Sinai.

"This road serves as a major artery to the entire North Shore of Brookaven Town," Superintendent Dan Losquadro said. "With the entire Mount Sinai School complex located along this stretch of road, it was imperative that this work be completed by the end of summer. I want to thank the laborers who worked through the rain to ensure this project was completed as efficiently as possible."
