Farmingville, NY - On Thursday, August 29, 2013, Councilwoman Connie Kepert stopped at the site of the newly constructed sidewalks along Station Road in Bellport. The sidewalks extend a little over half a mile along the west side of Station Road from Beaver Dam Road to Head of the Neck Road. The sidewalks were paid for using a $165,504.25 Caithness Grant from Bellport and North Bellport as a part of the Caithness Community Benefit Package negotiated by Councilwoman Kepert. The Bellport community decided to use a portion of their grant funds to construct the sidewalks in order to provide a safe avenue for pedestrians to travel from the train station to the Village.

"I am extraordinarily pleased that this project is nearing completion," said Councilwoman Kepert. "I am a strong advocate for both pedestrian and bicycle safe streets in the Town of Brookhaven. This sidewalk makes Station Road a safe place for pedestrians to travel."
