Coram, NY - Brookhaven Highway Superintendent Daniel P. Losquadro is making Safety Town mobile. Traffic safety education classes are currently conducted by certified instructors from the Highway Department's Division of Traffic Safety at the Safety Town facility, located at 249 Buckley Road in Holtsville. At these classes, school children are instructed in traffic, pedestrian and bicycle safety, first in the classroom, then through a hands-on experience using bicycles and small-scale electric vehicles in the adjacent miniature village.

"By investing in Safety Town, we are directly investing in children's safety," Superintendent Losquadro said. "The Highway Department can now bring these classes to local school districts throughout Brookhaven Town on a regular basis."

If you work within a local school district and are interested in having a traffic safety education course held at your school, please call (631) 363-3770.
