The Brookhaven Highway Department recently added a traffic light at the intersection of Jayne Boulevard and Lisa Lane in Port Jefferson Station. Crews also repaved Jayne Boulevard from Old Town Road to New York State Route 347.

Coram, NY - The Brookhaven Highway Department has improved driving conditions for thousands of motorists in Port Jefferson Station by installing traffic signals at three busy intersections. These signals were installed at the intersections of Jayne Boulevard and Lisa Lane, Jayne Boulevard and Old Town Road, and Dare Road and Continental Drive near Old Town Road.

"All of these signals have been placed in high volume traffic areas and will improve motorist's safety, while also alleviating traffic flow issues," said Highway Superintendent Daniel P. Losquadro.

The Highway Department also completed a significant paving project in the hamlet when it repaved and restriped Jayne Boulevard. John F. Kennedy Middle School is located directly off of this roadway, as well as a back entrance to Terryville Elementary School that is used by school busses.

"The Highway Department was very timely and professional with their work," said Theresa Etts, Assistant Principal at John F. Kennedy Middle School. "Crews repaved all of Jayne Boulevard, repaired sidewalks on the east and west side of the road and had someone from their Division of Traffic Safety meet with administrators to discuss putting in the traffic light at Lisa Lane. All of these measures make it safer for children to get to school."

"Jayne Boulevard is a main thoroughfare used by thousands of motorists on a daily basis, connecting mid-Brookhaven to New York State Route 347," Superintendent Losquadro said. "This project was a great success because it addresses several issues for Brookhaven commuters, while also providing a smoother ride for children on their way to school."

Residents have been very complementary regarding the work the Highway Department has been doing in their community.

"The improvements are great," said Edward Garboski, President of the Port Jefferson Station/Terryville Civic Association. "Jayne Boulevard is one hundred percent better from one end to the other."
