The Brookhaven Highway Department recently completed two community improvement projects in Yaphank.

**Yaphank, NY** - The Brookhaven Highway Department recently completed two paving projects in Yaphank, improving the quality of life for residents in the German Gardens neighborhood and motorists who use the well-traveled bridge on Mill Road, south of Upper Lake. The roads paved within the German Gardens community include: Broad Street, Cedar Street, Center Garden Boulevard, German Boulevard, Linderman Court, Martin Street, Northside Road, Oak Street and Park Boulevard.

"It is great to see the Highway Department addressing the concerns in our neighborhood," said Jesse Porter, who lives at the corner of Center Garden Boulevard and Broad Street.

"I have been living in this neighborhood for fifteen years and am very happy to see these streets being paved for the first time," said Thomas McKay, who lives on German Boulevard.

"It is very gratifying to resolve the issues of an entire community in one project," said Daniel P. Losquadro, Superintendent of Highways. "In the same time frame, we were also able to pave the bridge south of Upper Lake, by the Mill House Inn, which was in desperate need of repair and is used by thousands of motorists in the mid-Brookhaven region."
