Middle Island Road in Medford was recently repaved and restriped by the Brookhaven Highway Department.

**Coram, NY** - The Brookhaven Highway Department recently completed repaving and restriping the heavily traveled Middle Island Road in Medford. Medford Fire Department Station Number Two is located along this roadway, as well as several homes and businesses. This road serves as a major artery for motorists traveling between Granny Road and Horseblock Road. In the same time frame, Country Road in Medford was also repaved.

Residents in the area were very pleased with the Highway Department’s work.

"I think the Highway Department did a wonderful job," said Joan Dursi, who lives in the Medford Pond Heatherwood Community located off of Middle Island Road. "This road was in horrible shape and now driving on it is a pleasure."

"I have received a lot of positive feedback regarding this project," Superintendent Losquadro said. "As always, this was a team effort and I want to thank all of the men and women who worked on this community improvement project for a job well done."

**Daniel P. Losquadro * Highway Superintendent**
