Farmingville, NY - On Saturday, April 26, 2014, Councilwoman Connie Kepert stopped by the Middle Island Fire Department to extend congratulations to Justin Strunk of Troop 433 on achieving Eagle Scout, the highest rank in Scouting. Ms. Kepert also attended the Eagle Scout Ceremonies of Romello Green, Kevin Perlow, Brendan Short, and Brandon Rodriguez of Troop 63 at the Coram Fire Department.

Justin Strunk’s Eagle Scout project was to construct a fire engine-shaped bench for kids to sit on while watching educational videos at the Brookhaven Fire Fighter Museum. Romello Green built a pair of cement handicap access walkways into the Trinity United Methodist Church in Coram. For his project, Kevin Perlow constructed and installed two eco-friendly, durable plastic park benches made of recycled materials at a park in Mount Sinai. Brendan Short’s project consisted of building a well house at the Longwood Estate depicting how life was in the 1700s. Brandon Rodriguez installed a split-rail fence around the Davis Family Cemetery behind the historic Davis House in Coram as his Eagle Scout project.

"Congratulations to all the scouts, their families, and their troops, and thank you for dedicating the time and energy to make your communities a better place to live, stated Councilwoman Connie Kepert.
