Coram, NY - Superintendent Daniel P. Losquadro is partnering with the Education & Assistance Corporation to have certified technicians check to see if residents have their child's car seats installed correctly. Technicians will also teach parents and guardians how to properly install these seats, while providing essential information about child passenger safety. When installed correctly, in the event of an accident child safety seats can greatly reduce serious or fatal injuries.

"We are scheduling these events as often as possible to meet the busy schedules of parents and guardians," Superintendent Losquadro said. "Those who participate will receive peace of mind without having to reach into their wallets."

The financing for the initiative is provided by Governor Cuomo's Traffic Safety Committee to fund road safety programs for local children. Through the grant, a limited number of seats will be available for qualifying Brookhaven residents.

The Child Passenger Safety Program will take place Friday, March 28th from 10 a.m. to 1 p.m. at Miller Place Fire Station #2, located at 220 Miller Place-Yaphank Road in Miller Place, NY 11764. Inspections are by appointments only. To schedule an inspection, please call 631-363-3770.
