4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To educate as many residents as possible through educational brochures, literature and articles. To provide educational materials that inform residents on how to limit / modify behaviors which may result in pollution-generating activities.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

5050 pooch bags and 400 pathogen education brochures were distributed to pet owners. The Town utilizes Facebook and Twitter to educate residents about ecological issues, with over 47,000 followers on Facebook. The Town has reduced its reliance on printed materials, and increased the use of social media platforms.

C. How many times was this observation measured or evaluated in this reporting period?

52,050

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The goal for the next reporting period is to reach a similar number of residents through various outreach efforts such as those listed above. This will be achieved by introducing new literature and e-literature. The Town continues in its effort to reduce printed material, and increase its reliance on technology and social media outlets. Where appropriate, printed literature will be posted on the Town's web site as it is developed.

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To educate as many citizens as possible through outreach and public education programs. Education and outreach programs are conducted through the Holtsville Ecology Site, Cedar Beach Nature Center, West Meadow Beach, the Parks Department, and at Town-sponsored community events and festivals.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town conducted various programs targeted at school-age children and the general public. Programs addressed conservation, stormwater run-off, recycling, plastic debris, nitrogen cycle, green living, and hazardous waste disposal (approximately 20,820 participants). The Cedar Beach Nature Center and Ecology Site have several interactive exhibits focused on conservation, pollution prevention and stormwater runoff. Over 203,836 residents visited these facilities.

C. How many times was this observation measured or evaluated in this reporting period?

224,656

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The goal for the next reporting period is to continue to provide educational programs for targeted groups, and opportunities for the general public to become aware of their actions and how those actions impact surface water.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To continue to recruit volunteers to assist with green initiatives such as large scale plant-ins and maintenance of community green spaces. One such example is the Roadside Beautification program in which roadside areas are "adopted" by residents and community groups that take on the responsibility of maintaining and beautifying the area.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town sponsored 30 Beautification spots in the last reporting period. Approximately 350 flats of annuals, 850 potted plants, 20 yards of compost, and 40 yards of wood chips were provided by the Town for community green spaces.

C. How many times was this observation measured or evaluated in this reporting period?

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To incorporate SWPPP review procedures into all relevant applications for construction sites disturbing one acre or greater.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

44 SWPPP applications were received during this reporting period. 11 required a standard SWPPP and 23 received a conditional release from SWPPP. 11 projects received approval to begin construction, and 20 individual projects were in some stage of construction. All projects are inspected regularly by the Town for conformance with SWPPP requirements.

C. How many times was this observation measured or evaluated in this reporting period?

		4	4
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The goal for the next reporting period is to continue to implement the SWPPP review process and conduct independent inspections in accordance with Town and State procedures; and to continue to provide opportunities for contractors to understand the SWPPP process.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To educate construction site owners and operators on Best Management Practices for erosion and sediment control; and to provide contractor education regarding the SWPPP process and procedures.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town distributes a SWPPP guidance document and an educational brochure targeted at construction site owners and operators. The brochure describes SWPPP requirements and highlights construction BMPs. The SWPPP guidance document explains the process and requirements associated with the State's construction program. Both documents are available through the Division of Stormwater, Department of Planning and the Town's web site.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The goal for the next reporting period is to continue to provide opportunities for contractors to understand the SWPPP process; and to provide materials that aid contractor understanding and encourage the use of proper stormwater controls. This can be done through formal means or direct contact with individual contractors.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To conduct as many stormwater retrofit projects as possible using leaching basins, retention basins, and proprietary products.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town completed 5 individual projects throughout high priority areas. Projects included the installation of new drainage structures, treatment systems, bio-retention areas, and disconnecting direct discharge points. Gazolla Drive (stream corridor modification, bio-retention, and new drainage), Maple Avenue Boat Ramp (bio-retention and new drainage), Pine Neck Avenue (bio-retention and new drainage), Miller Place Pond (new drainage) and Narcissus, Apricot and

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To use the Town permitting process to require property owners to manage and contain runoff on site.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

134 Town Wetlands & Waterways permits were issued during the reporting period which required the installation of dry wells to capture roof top and driveway runoff, and pool filter backwash; and required natural buffers in area adjacent to surface water.

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To acquire property in sensitive areas which will reduce / prevent the direct discharge of stormwater runoff into surface water.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

During this reporting period, the Town successfully purchased / acquired 60 parcels of land for the preservation of open space, totaling 176.86 acres. An additional 13.53 acres were purchased for use as natural retention.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To evaluate Town facilities and operations to determine how Best Management Practices are being implemented, therefore minimizing the potential that pollutants will find their way into local waterbodies.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town began operation of its new commercial-grade truck wash facility. 110 vehicles utilized the facility. Engineering began on two new salt shed facilities to service Ridge and Shoreham. The Town "combs" 50 acres of beach annually to prevent debris from entering the waterway. Greenhouse operations utilize IPM practices. The Town has a proactive program to collect discarded roadside debris; 815.31 tons of roadside debris was collected during this reporting period.

C. How many times was this observation measured or evaluated in this reporting period?

			5
--	--	--	---

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The goal for the next reporting period is to continue to implement high priority action items at Town facilities including restoration of existing parks using green practices; and sharing municipal resources such as the new commercial-grade truck wash facility.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To participate in local coalitions that provide a regional approach to implementing Best Management Practices to achieve water quality goals.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Town is an active member of several coalitions that were formed for the express purpose of improving water quality, including Lake Ronkonkoma Advisory Committee, Peconic Estuary Protection Committee, and the LI Nitrogen Action Plan. The Town has a working partnership with USGS to collect water quality data in the Carmans River; and the Moriches Bay Project, Friends of Bellport Bay, Stony Brook Yacht Club and the Coastal Steward to coordinate shellfisheries efforts.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To develop and implement new programs and initiatives to protect surface water.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Water samples were collected from the Pt Jeff Harbor Complex for NYSDEC's conditional shellfish program. 21 stations were sampled six times in the last reporting period. A new electric car charging station was installed at Town Hall. The Parks Dept. installed four new LED score boards in various parks facilities, and upgraded three bathroom facilities.
