Farmingville, NY – Farmingville, NY – On February 3, Councilwoman Jane Bonner visited the Rocky Point Middle School Library to meet with the school's Robotics teams, the Robo Eagles and Radical Robotix. Each team presented their projects and asked for feedback before they head to the Long Island First Lego League (FLL) Competition. Each year the FLL creates a different theme for their robotics competitions. This year's theme is "Trash Trek." Included at the competitions is a team project presentation, typically a conceptual idea proposed by the team as a solution to the year's theme.

"I am impressed by the presentations of both Rocky Point Robotics teams," said Councilwoman Bonner. "Their grasp of technology and spirit of teamwork should help them achieve their goals at the upcoming competition. I commend these students and their teams on a job well done."
