Mazzei

MASTIC, NY - Brookhaven Town supervisor Mark Lesko and members of the Town Council recently presented a proclamation to members of the Rocky Point Fire Department for their actions in assisting an injured Rocky Point man. On Friday, July 3, Supervisor Lesko was in Rocky Point when he came upon a scene where a man was passed out on a sidewalk. After a local resident called 911, the Rocky Point Fire Department was on the scene within minutes, where they quickly assessed the man's condition. They placed him on a stretcher and into an ambulance where they determined he was not well enough to transport to the hospital so they began performing more tests and procedures to care for him before they left the scene. Supervisor Lesko was overwhelmingly impressed with the speedy arrival and good work done by these first responders to come to the aid of a resident.
