June 4, 2014

Farmingville, NY - On June 2, Councilman Kevin LaValle (right) toured Briscoe Protective Systems Inc. located in Centereach where the company is expanding their building and business. In light of the recent carbon monoxide (CO) poisoning death in Huntington Station, Councilman LaValle went to the company to learn more about the dangers of CO and how he can bring more awareness to the community. Pictured with the Councilman is Denise Rueda, the Public Relations Director of the company.

Briscoe Protective Systems Inc. was founded in 1978 in Brooklyn NY, as a security alarm company. Ten years later they formed a fire alarm equipment distribution company specializing in New York City and Long Island approved fire alarms and security systems.
