**Brookhaven Town Councilman Kevin LaValle (left) and Highway Superintendent Daniel P. Losquadro spoke with residents regarding the recently completed paving project on Tree Road in Centereach.**

**Centereach, NY** - The Brookhaven Highway Department has improved roadway conditions in two Centereach communities while simultaneously providing a more aesthetic appearance. Four roads were paved, including: Jay Road, Tree Road, Liszt Street and Smith Lane.

Residents were very complementary of the Highway Department regarding the work they saw being done in their neighborhoods.

"There are several schools located off of this road," said Karyn Degnan of Tree Road. "This is a great project and the road needed to be repaved for a long time. The crews are working very efficiently."

"This project will improve the appearance of the neighborhood and help ensure motorists safety," said Diane Sclafani of Smith Lane. "I can't remember the last time this road was paved and I am happy the Highway Department has listened to our concerns."

"These roadways are very well traveled and have improved the overall infrastructure of the Centereach community," said Superintendent Daniel P. Losquadro after the projects were finished. "I want to thank all the men and women who diligently worked toward completing these projects in a timely manner."

"I want to thank Highway Superintendent Dan Losquadro and the men and women of the Highway Department for all their hard work on these projects," said Councilman Kevin LaValle. "Properly maintaining and improving our infrastructure is one of our main focuses in town government. I look forward to continuing to work with our Highway Superintendent and residents in our community to identify and repair other roadways that are in need of restoration."
