Farmingville, NY - On January 29, Supervisor Ed Romaine and Deputy Supervisor Dan Panico were present to oversee the demolition of a house located at 11 Plymouth Place in Shirley. The house, which had been vacant and in disrepair for nearly two years, was acquired by the Town through an eminent domain proceeding and demolished to provide more space for the expansion of the adjacent Shirley Community Ambulance Company building.

"I want to thank our Law Department for the work they did that allowed the Town to take action on the property and our Waste Management department for their efforts in the demolition and clean-up," said Supervisor Romaine, "Removing this eyesore improves the quality of life in the neighborhood and provides more space for the Shirley Community Ambulance Company to expand and better serve the residents in the area."

"This demolition has been a long time in the making for the benefit of the community and Shirley Ambulance District," commented Brookhaven Town Councilman and Deputy Supervisor Dan Panico. "Throughout my tenure on the Town Board I have made improving our communities on a block by block basis a priority, and these demolitions, which at times involve a lengthy legal process, will continue."
